WHY THE DWELLINGS COHORT?

Big picture: There is a lot of pressure on lead pastors to carry the weight for the masses. Many of you are aching for the smaller communities of your church to truly experience God's presence and grow in the practices of their faith and in their unique gifts. We want to help your community in these ways.

The Dwellings Cohort is a 6-month experience to:

- **Encourage** leaders to seek God's presence in their own lives
- **Connect** with other like-minded pioneers from the US and UK
- **Learn** about three shifts that can encourage and strengthen presence-centered communities

We know that you want to see your community gathering around the presence of Jesus. We believe that your leader or staff participating in our cohort will help strengthen the smaller communities within the whole of your church.
